**I'm Fay and today is the day to activate the energy of abundance in your life to create more wealth, abundance and opportunity.**

- Are you struggling to manifest more money?**
- Are you tired of practising the Law of Attraction and seeing no results?**
- Are you frustrated that your vision and reality are out of alignment?**

The truth is that your environment is a magnetic source of energy that can either attract your desires, or create more of the same struggle and scarcity.

It's essential that you learn to align with its energy and flow so you create everything you do want in life!

I help women around the world transform their lives by reconnecting to the energy of their environment through the practise of Spiritual Geomancy.

My clients are women who come from all walks of life - women just like you...

Through working with me to transform the energy of your environment you can make your vision a reality. You can create more money, wealth, fun, freedom and ultimately a happier life.

Here are some quick fixes for more abundance and how to intentionally attract everything you want with ease.

You CAN harness your environments magnetic energy to call in anything you want... you simply have to set it up so that it can do so!

Spiritual Geomancy is my special blend of two disciplines - the spirituality of nature mixed with the practise of working with hidden and invisible earth energy.

Geomancy has been used for over 5000 years in various forms worldwide. Perhaps you're familiar with the Chinese form of Geomanacy, Feng Shui, but there are many other modalities.

The aim of Geomancy is to heal, harmonise and enhance energy to create an environment in which we can thrive mentally, physically, emotionally and spiritually. In essence its about creating health and harvest. The harvest of toady is a profitable business, a health bank balance, ease, flow and opportunity.

Spirituality is our connection to Source, Divinity and the Consciousness of the Universe - whatever term you are most comfortable with. We achieve this connection through Nature, the Earth and by extension the wider Cosmos.

This connection allows us to connect with something greater than ourselves, and access levels of intuition and consciousness within ourselves and expand our awareness to create and attract the wealth and buandance we deserve.

**Spiritual Geomancy is a practical and tangible method to activate the energy of abundance in your life to increase wealth, health and wellbeing.**

**Spiritual Geomancy isn't 'woo woo' or superstition. It's a tried and tested technique of working with energy and human potential.**

**Spiritual Geomancy is not only for the rich and famous who spend thousands on Feng Shui consultants, House Whisperers and Sacred Space creators!**

The truth is ANYONE with any type of house, building or land can use Geomancy to improve their environment and lives. And here's the good news - even if you are still a bit dubious about it, it works!

You don't even have to believe in Geomancy for it to work for you! It's not a matter of belief, it's a matter of energy!

I have used it personally to transform my life. I was once in a highly abusive marriage struggling mentally, emotionally, physically, spiritually and financially.

Now I have a home I love and a business that gives me freedom to enjoy my life!

**How can you use your environment to attract wealth, health and happiness?**

## Become aware that your environment has its own personality

Imagine your environment has its own personality, and history. You live there now, but who lived there before you? Was there a house on the site before yours? What was the land or building used for? Introduce yourself to your home and the ground beneath your feet. Light a candle, explain who you are, what you do and why you LOVE living there!

## Appreciate your environment

Look after your home, make sure it is well maintained, with no broken fixtures or fittings. Appreciate your outside space, feed the birds, and connect to nature. Become aware where the sun rises and sets throughout the year. Give thanks for the shelter and support you receive.

## Welcome in abundant energy

Welcome in positive abundant energy! Go through your house, office, outbuildings etc systematically. Ensure driveways and front doors are clear of clutter and easy to access. Take care of and tend the garden or green areas. Notice what parts of your environment may not feel good and take steps to rectify this to remove blocks to abundance.

## Space Clearing

A space clearing is a chance for you to free your home and garden, or office and business from past memories, traumas etc that are blocking the energy, and your ability to manifest your dream life, together! Just like we take care of ourselves, your environment also needs some TLC from you. Treat it with love, respect and gratitude.

*Now for the best bit...*

# Activate the Abundance Energy Areas in your life!

There are a number of ways to activate abundance in the energy of your environment, from the 'power centre' of your home or office, to ensuring any 'detrimental' energy is neutralised. Right now we're going to concentrate on wealth and prosperity area of your home or office.

## So how do you find it?

Use a compass or a compass app on your smart phone. Simply find the SOUTH EAST area of your home (or office if you concentrating on business abundance). You don't need at exact spot, or the exact compass reading, the general area is enough so don't worry!

Now you know this is your wealth and prosperity area, we need to activate it! If your house is on several floors, this includes each level of your home.

If your wealth and prosperity area is on your toilet, don't worry. It doesn't mean all the abundance energy is going to be flushed away. Water does carry energy so keep the toilet lid down and the door closed.

# Activate the Abundance Energy Areas in your life!

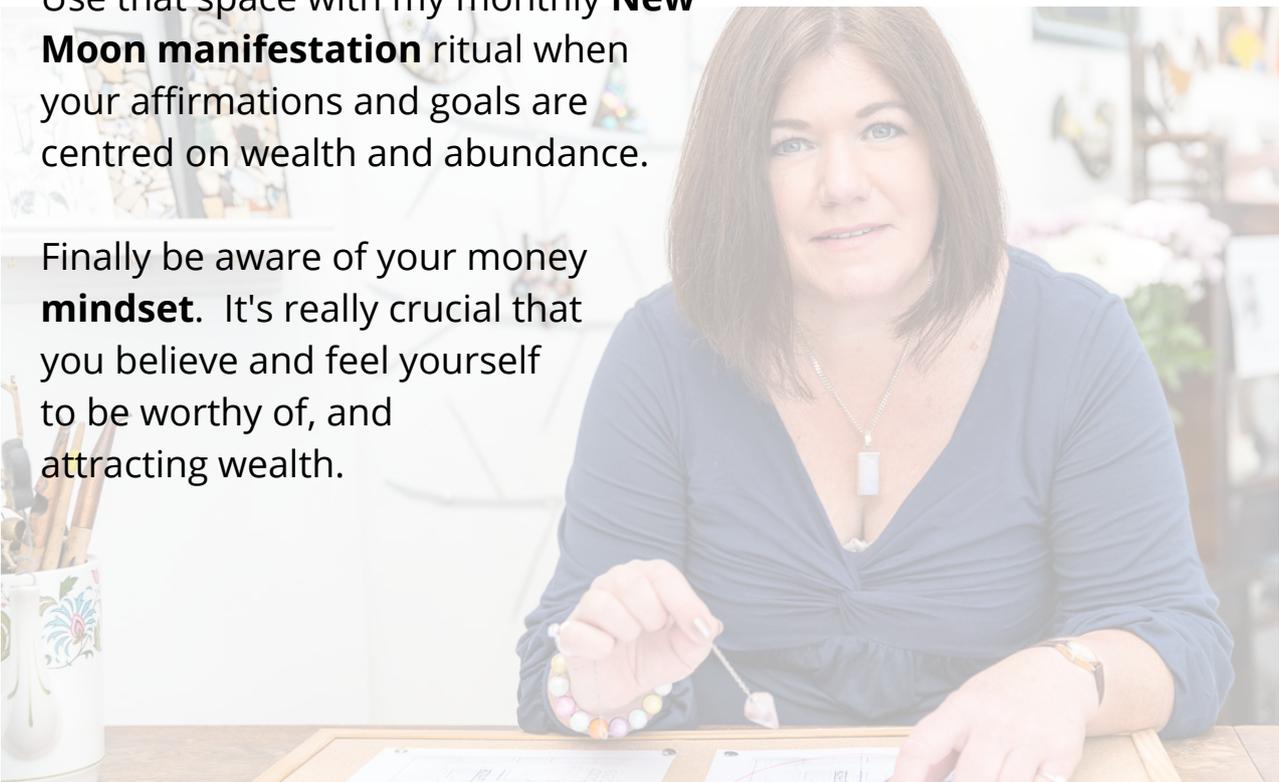

So how do you activate it?

**Declutter.** Geomancy requires the free flow of energy, and when places are cluttered with physical objects they are also cluttered with old energy and emotions, all from past. So have an honest look at what does need to be kept in that space and get rid of the rest!

And now **honour** the space. Put in that area a bowl overflowing with money, cheques for the amount of money your want, statues of deities associated with wealth and abundance, sacred symbols or runes, oracle cards, a vision board of your dream home, car or holiday! Whatever is meaningful to you for wealth and prosperity.

Use that space with my monthly **New Moon manifestation** ritual when your affirmations and goals are centred on wealth and abundance.

Finally be aware of your money **mindset**. It's really crucial that you believe and feel yourself to be worthy of, and attracting wealth.

I'm Fay, I help women activate the energy of abundance in their environment to become magnetic to money, success and all the good things in life!

I'm a Geomancy and Dowsing expert, blessed with the ability to see 'energy' and a passionate female entrepreneur who has transformed my life.

I've ended up on my path because I've seen and experienced the power of our connection to invisible energy and forces in our environment, and the consciousness of these forces.

We are not separate from our environment, and working on both our internal, and external reality is crucial to achieving lasting change and success.

I'm an incredibly spiritual person but I'm practical too. If I owned a broomstick I'd still sweep the floor with it. I love running my business but life wasn't always this good.

I've been where you are right now and it's my personal experience combined with my expertise that will help me to shape your mindset and environment, making your dreams become reality.

I will reconnect you to yourself, your personal power, and to the success and abundance you deserve. I work with women who know what they want and are willing to take action. Working in partnership with my clients, I reconnect them to the ancient spiritual and divine power of the Sacred Feminine, through the embodiment of creative and generative forces to give form to their dreams.

To continue your Spiritual Geomancy – I have two ways to work with me :  
I work with clients 1:1 around the globe – YES! It is possible for me to geomance your environment from a distance!
